Service Features and Benefits

TECHNICAL SUPPORT

We provide free phone support, internet support and provide very detailed documentation and friendly forums to answer all your questions.

NO ANNUAL FEES

Our point of sale system doesn't come with any annual fees. We do not believe that it is right to charge customers for the program over and over so with Polar point of sale you will get free phone support, internet support without any annual fees.

FREE UPGRADES

Unlike our competitors Polar POS comes with free upgrades that we routinely release. We consistently check with our customers to ensure that we are providing the best service possible.

Our point of sale system will ensure that any business will become more efficient, versatile and streamlined. Our features allows for managers to focus on other tasks, leaving price changes, statistic information gathering, time attendance and more! Each feature is specifically designed to greatly reduce the work load and provide a reliable and consistent source of information in regards to the business operations, currently inventory and security.

Polar point of sale has integrated with numerous credit card processors to provide secure credit card, debit card and EFT transactions while also being capable of validating checks to prevent fraud. Our point of sale system will also not only validate the check but record the fingerprints of the individual submitting the check. Our biometric capabilities further extend in making employees efficient by allowing them to punch into work and sign in simultaneously using their finger.

The point of sale system is ensured against data corruption by implementing the cloud system in which the same data is copied across all stations and servers raising the redundancy and creating a system that has no network black outs. Polar point of sale is the only true point of sale system in the industry that has not only met the needs of the customers but has surpassed them.
